Dear Monroe,

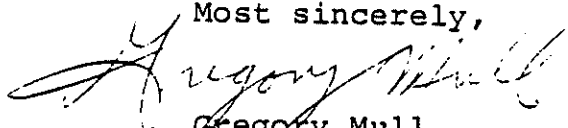

I want you to know how grateful I am to be here. Designs are flowing through me and it is a creative joy. My job is to surrender my will and give my heart to Serapis Bey, Jesus, Paul the Venetian and all concerned with Camelot. Then my head will be filled and my hand will be busy.

I am in the process of cutting myself free of all follow-up business in San Francisco. I had an application in for a second mortgage loan with my bank and it was to be approved and confirmed early Monday morning so I could consolidate my bills--it would have been deposited in my account within three days. It was denied because the appraiser came in with a low appraisal. I then drove fourteen miles to my mortgage loan company to refinance my home with them--they required a past income tax return that I had to drive and get.

It will be paid off in three weeks if approved. With this additional business I arrived at Camelot after 1 a.m. today. If this is turned down I probably will put my home on the market for sale. I have not had new jobs since the beginning of December which was the masters way of freeing me for Camelot. I have a mortgage and temporary car loan payment amounting to \$1,400.00 which I don't have. My bank account has a balance of \$45.00. Could you issue me a check for this amount so I am covered. I must mail both payments from Camelot tomorrow. I feel it was opposition that I did not get the loan from the Hibernia Bank, but then I cannot fully judge what the ascended masters have in store for me. I am sorry to have to ask for money at this time especially when clients should be supplying this.

I thank you for your help at this time.

Most sincerely,

Gregory Mull

Dear Monroe,

Tomorrow I leave for San Francisco, I can drive for one half the price of flying so I will drive when I can. It takes 7 hours driving time and a minimum of 4 hours portal to portal flying.

I would like to leave at 3 PM as I need at least 3 hours of day driving as site driving is very tiring.

I need to bring back more drawing enjoyment, which I will do Monday. Also Mother wants me to see Chardelina & some things at a antique store in S.F. which I will do Saturday. Also I should have plans for "Camplot" sign from Steven Primm to bring back.

May I show you a floor plan of new building if you have time, if not I will continue to work up areas for our site plan and conditional use submittal.

All best wishes,
George Mull

Beloved Mother,

As of this Sunday, February 4, or any day next week I will be able to discuss architecture with you for Camelot. I have a design in sketch form for the auditorium. It is time now to share a basic design concept with you. My evolution of designs have arrived at a basic concept which I need to know how you feel about it.

I also have several books with pictures to show you with some buildings of worth which make a good study in architecture. There are many things about architecture that we can talk about as well as take a tour.

In the Los Angeles area we could visit Frank Lloyd Wright's Hollyhock house at Barnsville Park at Vermont and Hollywood Boulevard. Open Tuesday and Thursday for tours at 10 a.m., 11 a.m., 12 noon, and 1 p.m. and the first Saturday of each month. We could also see the glass Church called "The Wayfarer Chapel" at Palos Verdes, California designed by Lloyd Wright.

To study basics of architecture and decorating, the John Paul Getty Museum is good.

In San Francisco we could see Frank Lloyd Wright's Marin County Civic Center, the Morris store in downtown San Francisco, Hyatt Regency Lobby and the Pepper Mill restaurant to see a fountain with fire coming out of the water.

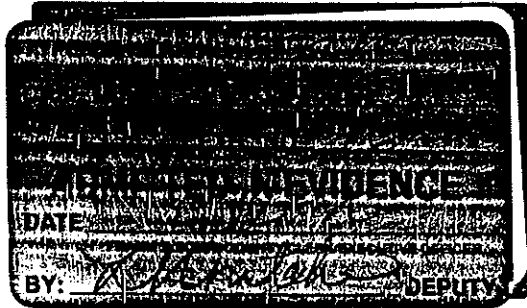

They say one picture is worth a thousand words, but to see and experience these works saves a thousand words. The direct experience is very valuable. I feel Sanat Kumara may be able to inspire us with Venusian design. Serapis is close to my heart.

I visited the San Francisco library and could find nothing on Atlantis or Atlantean architectures. The ascended masters, can give us what we need--also Lucinda and I are investigating all past dictations where architecture is mentioned.

At Fillipellos in San Francisco I saw a beautiful chandelier with eight sides, I will get you a picture of it. It is about 4 feet high and 34 inches in diameter, his asking price is \$1,200.00. It is exceptionally beautiful, very full with crystals and a lovely design. He is leaving today for Europe to buy. He will try to buy some Louis VI or any French end or coffee tables which you can view without any obligation to purchase.

Dear James,

Enclosed are current immediate expenses for which I would appreciate a check for same. My mortgage increase loan was turned down because the mortgage was getting too large for my income. I was hoping to consolidate my bills with this loan. My income increased greatly last year, so I will resubmit it again with those figures. The two prior years income tax returns were already submitted. It is almost certain I will put my home up for sale as soon as school is out in June. My daughter Linda will sell the home, which is a triplex with a swimming pool, as her summer project. She will then have a home till she finishes high school.

I will give to the Church 10% minimum from my profit which should be about \$13,500. I am asking \$240,000 and I have a total indebtedness of \$105,000. The large amount due as listed on the enclosed is high for this month as I did not pay some payment plans for two months as I did not have income since the first of December except for rental income. Next month should be about one half this figure. When my property is sold, I will only have about \$700 per month expense supporting and educating my daughter in college and for my immediate expenses. This will bring my worldly obligations down considerably.

I am sorry to have to charge you anything, as I love serving Mother, the Board of Directors, and the Ascended Masters, but this is the only way I can be here now.

I also love my architectural work and know I can serve you and the Ascended Masters well with their guidance for the new age architecture for Camelot.

Most Respectfully Submitted,

Gregory Mull

Beloved Mother and Board of Directors,

I am writing to you to let you know I feel I am in my right place here doing that which I love to do most, which is doing architecture. I have a good feeling about what could be fine design for Camelot. It is evolving slowly in my consciousness, and I would like to share it with you at your convenience. It is very rewarding and exciting for me to tune into ascended master concepts for Camelot.

I got the Will of God Focus at the Ashram preliminaries completed Tuesday, the day following the Maitreya seminar. Bruce and I met there and discussed the changes. When it is approved, I will get plans in for a permit within a few days. The map of the tents for the next class will be completed today. I have a preliminary design for a home for Mother ready for her approval, and also a preliminary design for the entry guard house out at the entrance. Lucinda and I are working on preliminary drawings to arrange seating to make sure we can get 33,000 people in our circular auditorium, which will actually determine the size of our building, and at the same time I am working on maps for the conditional use permit, which will be a general area map showing a 700' radius of adjoining property with their use and addresses. Also a contour map showing location of our new auditorium building, along with area for same. Parking for 1,000 cars and landscaping. Also, soon we will have the topographical survey, and I can locate the barracks buildings so they can be reassembled.

I feel mental and physical opposition from the astral for what I am doing here, but it will not separate me from the work that is needed to be done. Also the radiation from the ascended masters is with me.

When Monroe called me and asked me to come and do architecture at Camelot on my terms, I was pleased and grateful and wanted to make it as easy as possible for all of us. I said I could only come at once if my monthly bills were met, which runs about \$2,000 per month plus transportation expenses to San Francisco and back each weekend to close down my business which involved eighteen clients I had last year. I am not taking on any new clients at all, only necessary follow up work. I also see my daughter who is living alone. This we both feel alright about. I was considering selling my home for a few months before your asking me to join you. I have definitely decided to put my home on the market for sale this summer. It will be my daughter's summer project. I will advertise it and she will stay home and show it. It makes it better for bargaining if we can sell it ourselves. If she does not sell it this summer, then I will list it with a realtor.

58 CASELLI AVENUE
SAN FRANCISCO 94114
TELEPHONE: 431-8706

I will give you 10% of all profit I make from the sale of my property, but will also pay over and above that sum if necessary to see you are paid back in full for all monies paid to me to-date of receiving sale money, unless the home could not be sold for some reason. For example, if I clear \$100,000, I will give you \$10,000 automatically. If you have paid me \$20,000 to that date, I will put an additional \$10,000 with it so you break even to that point, except you will have provided my room and board to that date at your expense. In other words, upon the sale of my home you will be reimbursed for all monies paid me to that date or you will receive 10% of all profit from the sale of my property, whichever is greater. From that point on I can reduce the sum of approximately \$2,000 per month which you agreed to pay to \$700 per month plus my free room and board here or off campus. The money is for the education of my daughter and my expenses, including my visiting her every second weekend after school is out and once a month after she starts college. The \$700 per month salary plus living expenses living on or off campus must be agreed upon by you before the foregoing offer can be a commitment. I am fifty-seven years old and this money is my life savings. If I were to establish my business again in the future, I would need capital. If I were a permanent staff member, I would consider giving you all my money, but I have not arrived at the point of commitment and have a wife and a daughter plus Helen and Louise to be partially responsible for (their father makes a very low salary).

It will take a minimum of four years to design and supervise construction of buildings for Camelot. It would cost you for my expenses \$8,400 per year plus room and board here, and in four years it would be \$33,600. An outside architect would charge seven to ten percent, which could be \$2-1/2 million, considering a \$33 million expenditure.

My current emergency of needing \$4,276.76 was because my application to increase my present mortgage was declined as I had increased it \$20,000 last year. I let my bills get two months behind. The future monthly payment to break even is about \$2,000 per month. I will itemize for you each month.

I need to return with a minimum of \$2,000 this Friday, February 23, as my mortgage is due this weekend or I must pay a \$60 penalty for being late--I have never been late before. I had to call to keep one of my phones from being disconnected. The telephone company extended it one week to next Wednesday. I have my AAA towing service cancelled for being late. Also, fire insurance on my house is past due. All my bills are an emergency, and I must keep my payments current. I hope to deposit your check Monday when I return this weekend. I will leave at 2:00 p.m. this Friday, driving up so I can bring back more office equipment. I now have four drawing tables and four drawing boards here plus Lucinda's board and drafting machine and am using my equipment and supplies. I have over \$2,000 in equipment and supplies here now.

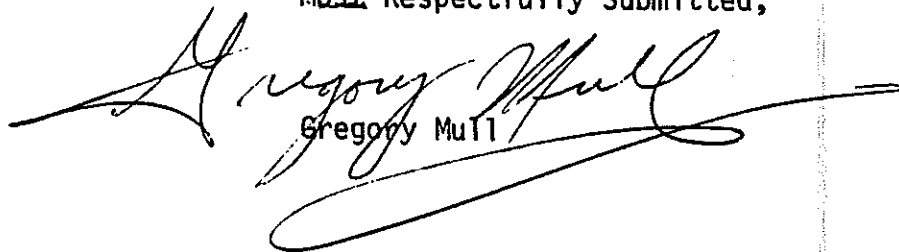

58 CASELLI AVENUE
SAN FRANCISCO 94114
TELEPHONE: 431-8706

I wish to propose I put an ad in the yellow pages of the Los Angeles and Malibu phone books by April 27. A 1" ad is \$21.35 per month. A 1/2" ad is \$13 per month in the Los Angeles book. We could take on outside work if time permitted, and I had enough drafting help. We have talent here. Designing and drawing buildings for Camelot is first priority, but your Mercurian Guild Hand Crafted Homes project should be implemented. This could pay for having an architectural department and make money for the Summit. I made \$60,000 last year on architecture--\$30,000 of which was not paid, which caused the situation I now have. I decreed for the work, but I was cuttoff from clients paying as per contracts as opposition to my supply.

I trust the ascended masters want us to be together here at Camelot. I want to stay and serve. I know my soul is blessed by being here. When my work here is completed, I still will serve the ascended masters. I am grateful for all the masters have done and are doing for me.

With all best wishes and appreciation for all that you do for Camelot.

Most Respectfully Submitted,

Gregory Mull

Beloved Mother and Monroe,

As a matter of information and not complaint. My life since being here the last five months is like a yo yo--different than what I experienced in the world. Sick, then well, full of energy, then depleted. I call it God opportunity, balancing karma.

This noon a low came and I can attribute it to something that happened last night. Kathleen called Linda and Linda said she did not want to talk to Kathleen any further and not to call again. She did not like it that Kathleen lied and said to Monroe that she said Mother wanted me to divorce her and I was supposed to have said this to Linda. Kathleen wanted to talk about something Monroe said to her about the Bible. She said she did not want to hear it--she asked if she could have Bible lessons sent to her. Linda said do as you like but I cannot talk to you. Kathleen then said with strong feeling, "Your Aunt Bernice (my sister Bernice Gagron) is going to be disappointed in you and your dad, as I am going to tell her what is happening and you refused to study the Bible." Linda was upset--felt the energy and we agreed it was a vicious thing to bring my sister into this. I disowned her two years ago and have had no further contact with her because of her hate for our movement and her constant harassment of me being in these teachings. She left a conference outraged years ago after hearing both of you give an introductory speech. I didn't want any more of her negative fundamentalist energy. She was someone I loved but had to choose between her and the masters. This is the worst thing Kathleen could do to me so far as I need only protection while I serve the masters with architecture. She tried to get my ex-wife to turn on me with her recent call to her.

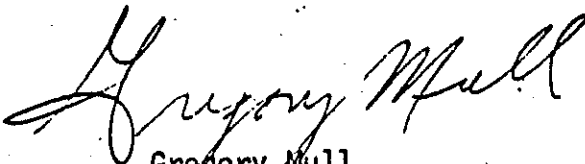

Kathleen always prided herself in saying she did not fear anything in life except bears and spiders. It is unfortunate she could not include God and the ascended masters.

Mother, Linda wants me to convey to you that she has only trust for your handling of this entire affair with Kathleen and Louise and she is aware of the nature of Kathleen and does not really want to be involved. I know Linda's heart and she has only respect and love for you. She has been influenced but not harmed by Kathleen. By my complete separation from Kathleen she is more aware of what is real and unreal in all she has heard and experienced.

I trust the ascended masters will help me get through with this divorce soon.

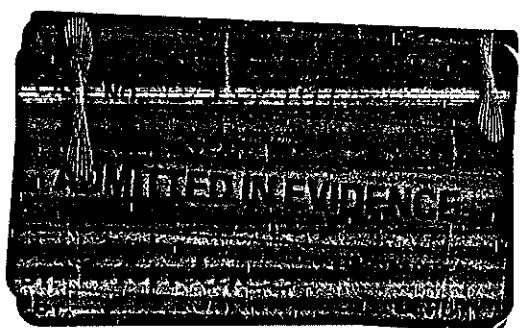

I am sorry if you are burdened by all this.

Respectfully yours,

Gregory Mull

Beloved Mother, Monroe, Edward and James,

The buyer of my property in San Francisco is going to mail me today a contract to be signed and he is then opening an escrow account.

Linda has graduated from High School and is now packing and preparing to move to my condominium in Westlake Village. She will be moved by the conference, and after the conference she will be looking for a job. Julie Lane moves in this Thursday and is now looking for work. My ex-wife loaned me the money but after a complete change of a previous agreement because of her conversation with Kathleen which she told in part about. She charged me \$1,500 for a thirty day loan and said she would not pay for Linda's education or expenses if needed unless she just felt like it because Kathleen said you would take all my money anyway and that our Church is mercenary and dishonest. Kathleen said you get people to sell their homes, then when they are sick you call the relatives to come get them. That you used her and when you no longer needed her you kicked her out. That you would use me to save two million dollars in architecture before I got the same treatment. Marge tried to bail out on the loan as she did not want Linda to leave San Francisco and she did not want Linda to attend our Church anymore if she loaned me the money. It was when I questioned this she told me she felt our Church was dishonest and used people. She also asked me to let Linda be with her in the future during conference times as a part of her giving me the loan. These requests I did not agree to.

After she did loan me the money with penalties I said I was sorry Kathleen brainwashed her. She said she was not brainwashed and that she believed Kathleen. Kathleen hurting me financially hurts the Church also. I felt with my contribution to Linda's school years with living in the condominium she could do the rest with expenses and she agreed to this until talking to Kathleen. Marge with her negativity has used this as an excuse to hurt me. Kathleen never called my ex-wife before. It was a direct calculated hit. Kathleen had the lady she lives with call me with questions from Kathleen. I refused to talk to her about Kathleen and told her to stay out of it entirely.

This afternoon I got a call from Patricia Meehan that Kathleen both telephoned and later wrote that I was divorcing her, not giving her a cent--no clothes except Guru Ma suits. I bought her hundreds of dollars in clothes. I got her a wardrobe when we were married for \$400.

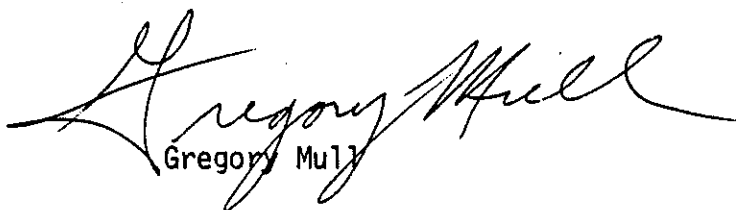

She questioned Gabriel that he brought us together, therefore we could not be separated. Kathleen knows the issues. To tell Patricia anything is like broadcasting it on TV. Kathleen and I always agreed she was the biggest gossip we knew. I asked Patricia not to tell anyone and refused to discuss details except to say she was the only one to know and that it was totally my decision and not Mother's.

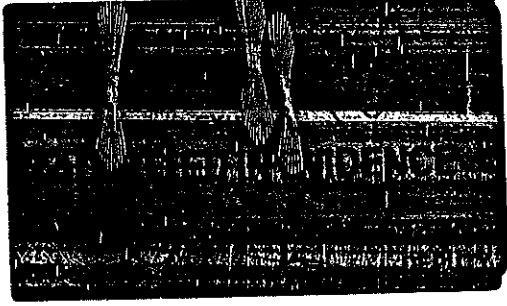

Kathleen is acting like Lucifer getting others to do the negative energy for her--like calling my sister. I have not spoken to her for two years. The lady Kathleen lives with came to a conference many years ago and walked out after hearing Mother speak for twenty minutes, my sister did the same. "My sheep will know my voice."

Helen tells me she is going to be staying with Kirsten and attend the conference. I am so very grateful to be here where Kathleen cannot come see me or call me. To talk to her is to play her game of manipulation. She has not signed the dissolution papers therefore has not collected her first \$500.00 settlement payment.

I must drive to San Francisco this Saturday and sort through twenty years of drawings; pack and move down permanently to Westlake, and prepare the San Francisco property for the new owner. We will return in time for the Serapis Bay dictation Friday evening. I will also drive Linda's birds down to their new home, organize the packing and moves that are already scheduled. I have a lot of work to do in a short time. I will be able to keep my draftsman busy while I am gone.

All best wishes and gratitude for all you and the ascended masters are doing for our planet and me.

Beloved Mother and Board of Directors,

Kathleen called Peter Sunday afternoon. He called and told me she said Mother kicked Edgar out of the Church as well as her so they went to Mexico and she got a divorce and they got married. Peter asked if she was working and she said Edgar didn't want her to work, to just stay home and be a housewife, and that they are living in Downey, California.

Helen is in Montana with an Uncle and Aunt (a very dogmatic, fundamentalist, Jesus, christian home) and will go to school there next year. Louise is in Sacramento and will go to school there.

Ruth Quish came to me today and said she bought a car from Edgar and he gave her his new address in Paramount, California. This is a different town than what she told Peter, where she will send the payments. I had a headache starting Saturday at the Saint Germain service and all day Sunday so I knew something was going on. Peter said he was on my side and would not speak to her again if she called, if I didn't want him to. I will ask him not to this weekend.

Friday I am going to be in San Francisco to take a deposition. Also to see a broker about listing my home and multiple listing it. Also Linda has moved back temporarily to San Francisco to sell our home. She has open house on Sundays and Realtors on Saturday. If we sell it first we don't pay Real Estate Company commission.

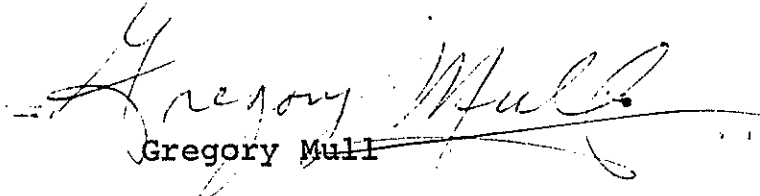

A contractor skipped the country and cheated one of my clients of thousands of dollars, did not follow plans and so owners are trying to sue me for \$11,000.00 of it. I was called as a witness last time I was in San Francisco and when I arrived in court I was told I and the structural engineer were the defendants because the contractor did not show up. The client's attorneys name us thusly. Donald Hannah will review plans with me and submit a letter to help me out of a very unjust, unwarranted situation.

Monday I have another inspection with the building inspectors to make Peter Middendorf's home into a condominium, which he will then sell for about \$700,000.00. He wants to move to a small community. I am trying to talk him into Westlake.

I will have six staff people stay at my home during the San Francisco class. I also want to attend while I am up on other business.

I have plans of the riding academy, Will of God Focus, details and guardhouse and a model of same for your review. Also, we should consider extending sanctuary to seat 2,000 people.

The battle of Armageddon sure is on--wouldn't want to be any place but here at the front lines where we can strike the greatest blow for VICTORY. Thank you for making it all possible.

Subject: Business in San Francisco Thursday

I need to go to San Francisco to sign and deliver papers and present them to the Judge on a court case which I should not have been involved in. It was persecution from lies from a client of mine whom the contractor did not follow the plans and then skipped the country. They are trying to make me liable for \$11,000 of it. Totally a plot, as I was to appear only as a witness, but at the Court hearing was made a defendant along with my structural engineer. Now I have the opportunity to submit evidence showing that I am not guilty.

Also, I would like to attend an energy design conference at Lake Tahoe September 8, 9 & 10th. These are fine professionals, and with new laws on energy, with getting permits, I would like to be informed of requirements as well as possibilities with designing for some. The architects listed seem to be top quality. It will be three days and cost \$150.00.

I also want to disconnect my phone permanently and bring my dictaphone here.

I need to inspect the apartment where the tenant moved out, for his refund.

I would also like to bring back to Westlake the last of the merchandise Linda and I are moving from San Francisco on a rental trailer I will pull down. The home will then be ready for complete occupancy by the new owner.

Grubb & Ellis, the largest real estate firm, will handle the sale. Can some staff decree work be done on the sale of this property?

I will leave this Thursday by car and return Tuesday or Wednesday of the following week.

All best wishes,

PROMISSORY NOTE

\$32,885.40

Calabasas, California, September 25, 1979

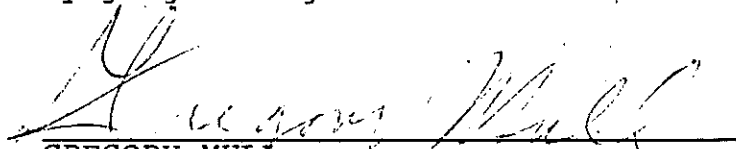

FOR VALUE RECEIVED, I, GREGORY MULL, promise to pay to the order of CHURCH UNIVERSAL AND TRIUMPHANT, INC. the sum of THIRTY-TWO THOUSAND EIGHT HUNDRED EIGHTY-FIVE DOLLARS and FORTY CENTS (\$32,885.40) with interest until paid at the rate of seven per centum (7%) per annum.

Said principal and interest is to be paid by me in a lump sum automatically upon the close of escrow for the sale of the real property and all structures, fixtures and improvements located thereon, commonly described as 58 Caselli Avenue, San Francisco, California 94114; provided, that all principal and interest hereunder shall be absolutely payable in full no later than March 31, 1980, so as to preserve the negotiability of this instrument in accordance with the provisions of Sections 3-104 and 3-109 of the Uniform Commercial Code.

I hereby promise to execute such other and further documents as CHURCH UNIVERSAL AND TRIUMPHANT, INC. or any holder of this instrument may hereafter demand including, but not limited to, documents to secure this note by mortgage, or deed of trust on the property herein described.

I hereby further agree that CHURCH UNIVERSAL AND TRIUMPHANT, INC. or any holder of this instrument is entitled to enter judgment against me, my heirs, successors or assigns for the full amount of the principal and accrued interest which is outstanding after March 31, 1980 in the event of my default in making payment hereunder; and, I hereby waive my right to notice or hearing concerning (a) any default by me in satisfying my obligations hereunder; (b) the entry of judgment herein; or (c) the execution upon such judgment.

I waive any requirements for presentment, protest or Notice of Dishonor from CHURCH UNIVERSAL AND TRIUMPHANT, INC. or any holder of this instrument. I further waive the protection of California Code of Civil Procedure sections 580a, 580b, 580c, 580d in any circumstances in which said sections would otherwise forbid the entry of a deficiency judgment against me.

Dear Monroe,

I can show you pictures of building types that I got from the Architectural library Monday October 15th 1979. I must return them Tuesday as I have already renewed them twice. I will list book names & pages for future reference.

I will leave Tuesday also for San Francisco for a court case Wednesday where I am suing a client in small claims court for \$750.00. I will return Thursday.

Gregory Mull

P.S. I also will try to solicit architectural work S.F.

Dear Mouse,

My home in San Francisco has been sold and is on a sixty day escrow. The new buyers qualify for a loan and have up a \$6,000.00 down payment in escrow. They are in the process of selling their home to complete the purchase.

I have advertised in five local newspapers and have had some response which I have been pursuing. I hope to get contracts on some of them soon.

I hope to support myself from outside jobs in the future.

I will need \$4,546.00 loan from the church to pay current bills. Last month I had to pay a mortgage penalty for being late. I will need this loan by Wednesday October 24th 1979 (This Wednesday) to get my mortgage payment in on time as well as other current bills.

All best wishes and thank you,

Gregory Mull

Dear Monroe & Edward,

Last Tuesday I mailed a check for my San Francisco mortgage for \$749.99. It cashed clear by Monday so I will need to cover this as well as other bills overdue. I would like to secure a loan for the \$4546. - I need for current bills.

You agreed in our last meeting you would continue to loan me money until I got jobs to support myself. I have one job & a possibility of three others. The job I have is from a client in San Francisco; I will receive a retainer fee soon that will only cover my help and expenses to travel to San Francisco & Santa Cruz, where I will be doing an addition on a motel. My total income will be \$3,000.00 which will take about 6 weeks to receive. I have been promised one down here soon, and desire for two others I have bid on. I did \$95. - worth of ads in five newspapers & will do some more next week from the loan money.

The sale of Caselli escrow time will be up about the middle of December. I would appreciate receiving a check this week end so I can deposit same in the mtg. depository. Thank you.

Dear Monroe,
 I have a tag from 9 to 11 AM each day. I will do 20 minutes of decreases w/ the staff at anytime from 5:45 to 8:15 in the morning, is this correct? If I don't hear from you I will assume it so. I work late at nite on my outside Architecture and often get to bed after mid nite. I need 7 hours sleep if possible. It must be my age. With this sleep I can put in a good days work.

If you would like to review the guard house, a model of which I made, with earth and planting 3'-0" up the sides please let me know. Also if you need any consultation before roads are put in or anything else please ask me.

We will need to get a decision from Mother on the Will of "God House" station of the cross" that I left with you & Judith as this will have to be returned in the near future.

Best wishes,
 A Gray

Beloved Monroe,

Peter Middendorf recently told me he had the board in Baltimore Maryland put the two thousand a year donation to Montessori put on automatic which means every year indefinitely you will receive \$2,000.00 ~~but this~~ ~~will~~ increase it but this should not be discussed with him. He likes to give on his own without being asked. I never question his generosity. Please write him a thank you letter.

I hope you & your immediate & larger family had a joyous Thanksgiving. I am sure all are glad to have "Mother" back. Especially the students who need her closeness. All best wishes dear friend.

Filippello when Mother bought the
Buddha has a statue of Jesus
in Marble that is so real that
at first I was frightened to look at
it as it was alive like
Michelangelo's works. The owner
wants to keep it for himself - but
for "Mother" maybe something could
be worked out. It is the most beautiful
statue I have seen.

Also he has 2 antique wooden
angels about 2'-0" high & that are
beautiful - I called Harold Garnik
about the students getting them for
"Mother" - they are \$340.00 each
but for her he will let them go for
\$340.00 for both. They have beautifully
sweet expressions. The radiation
is good. Anyway you might pass
on the Mother that when she is in S.F.
to be sure, & see "Jesus" - it is
a must!

Subject: Selling of home in San Francisco and Financial matters

The people who were to buy my property did not sell their home and backed out of the deal entirely. The real estate company is refunding their \$6,000 deposit. They will continue to show it on weekends, but I can discontinue the contract with the realtor at any time.

I am considering to go to San Francisco on Fridays and hold Open House on Saturdays and Sundays myself, advertising and decreeing for the right buyer starting in January. The present real estate company will charge 6% for the sales fee, Robert Bruch would do it for 4 1/2 %. I am wondering what I should do. Do you have any suggestions?

I have already reduced the sale price from \$240,000 to \$199,500. I am loosing my last tenant in January.

I currently have two jobs I am working on. A 20-room motel in Santa Cruz and a 24-teenage girl home in California City. That job is contracted for preliminary drawings until they raise money to build.

I advertise in local newspapers and the LA TIMES for leads. I am trying very hard to support my current bills, it is difficult but I feel the masters will see me through this.

Could some permanent staff decrees be done on the sale of 58 Caselli Avenue, San Francisco, California.

All best wishes.
